

# BEST IN DIGITAL PRODUCTIVITY & PERFORMANCE SOLUTIONS

Xcentuate

Xcentuate is an international provider of digital productivity and performance solutions for the financial, telecom, agriculture, pharmaceutical and public sectors. The firm works in close partnership with its clients to contribute to and support their digital transformation by providing the best in market expertise with world-leading technology that improves operational control and employee productivity and wellbeing while optimising work in-office or at home. A multi-faceted business, Xcentuate has collaborated with ActiveOps, the global leader in operations management, to provide a real-time 360° view of both digital and human business operations. This crucial data has helped the company curate a capacity management solution that reduces workforce costs and delivers productivity gains of 15% and above.

The judges praised Xcentuate's incredible growth over the past year, which has seen the company expand into the Asia Pacific region with its sister business Xcentuate New Zealand. Contributing to this tremendous growth is the new range of solutions added to the business' portfolio, facilitated by its new partnerships with Mail Metrics and Continuous Software. Mail Metrics provides an integrated software solution that delivers a multi-channel approach to customer communication, while Continuous Software focuses on first-rate project management.
